

KROMER & SWOZI Solution To GPS Line Painting

LINE MARKING WITHOUT STRINGS AND MEASURING TAPE

Enjoy the high efficiency, flexibility and cost savings the KROMER & SWOZI solution can bring you!

1

MORE THAN 75% TIME SAVING

- + 1 machine 1 operator
- + 75 % time saving with less paint fill ups
- + Reduced paint usage

SEVERAL WORKERS

1 OPERATOR 1 MACHINE

2

UNBEATABLE Line Painting ACCURACY

Thanks to the cutting-edge GPS and laser positioning technology, we are able to reach millimeter accuracy (laser), anywhere both outdoor and indoor.

Straight lines

Perfect angles

Perfect circles

3

UTMOST FLEXIBILITY AND FREEDOM

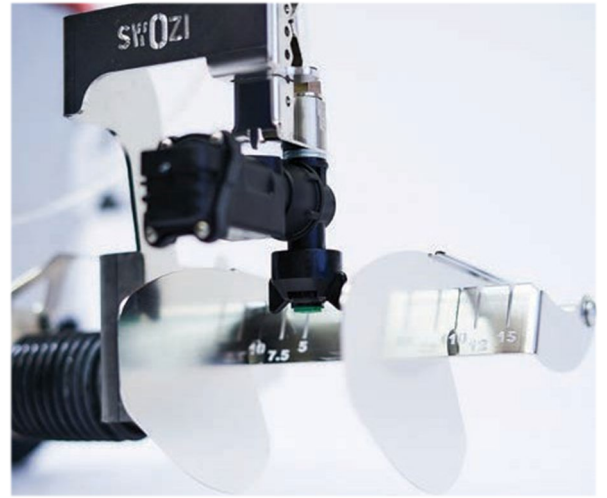

NO MORE STRINGS AND TAPES

- ⊕ No more time consuming and resource-intensive work
- ⊕ Over 100 sport templates with 1000s of variations
- ⊕ Fully customizable, smart templates
- ⊕ Can be used by anyone after 10 minutes of training
- ⊕ YOU DON'T HAVE TO BUY ANOTHER MACHINE FOR REPAINTING FIELDS QUICKLY:
Laser for stadiums and areas with poor GPS reception, GPS for outdoor sports fields.

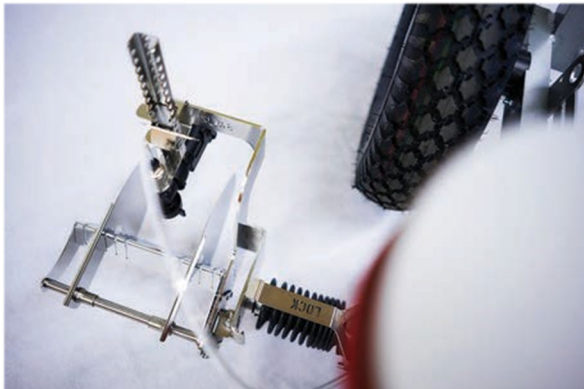

THE KROMER & SWOZI SYSTEM IS DESIGNED FOR OPTIMAL WORK EFFICIENCY, ACCURACY AND MOBILITY.

KROMER LINE PAINTER

SWOZI ARM

The SWOZI arm keeps the line straight even when you wander.

The SWOZI paint app is easy to handle and runs on a standard Android tablet.

THE KROMER TRACTOR AND SWOZI GPS SYSTEM

Swozi attachment can be added to any Kromer model for GPS accurate painting.

With the added laser tracker you can also mark 100% accurate when there is no satellite reception. As a supplement to the GPS solution or as a stand-alone solution. Especially in covered stadiums or on sports fields surrounded by dense trees, the GPS signal can be too weak.

KROMER & SWOZI GPS

KROMER TRACTOR with the 100% accurate Swozi GPS system.

VIEW AS THE DRIVER

The Kromer ride-on tractor with the largest paint tank (62.5gal) is the most efficient solution for sports facilities with many sports fields or for contractors.
